

TIAREZ VIETNAMESE COFFEE

Roasted Coffee Portfolio

SAIGON DRIP COFFEE

Saigon Drip Coffee *is the signature brand of* ***Tiarez Co, Ltd****, , sourcing premium coffee beans from Vietnam's Central Highlands cultivated under VIETGAP standards. With full control from green bean processing to roasting, it ensures consistent quality, clean flavors, and rich natural sweetness in every cup.*

Powered by a modern Hot Air roasting system with a capacity of 5 tons per day, Saigon Drip Roastery delivers stable, export-grade roasted coffee with precise and repeatable flavor profiles. In parallel, Tiarez provides comprehensive OEM solutions, including custom roasting, flavor development, and private label coffee, serving both domestic and international markets.

GALLERY

1. **PRE-HEATING**
Stabilizing the roasting chamber temperature before loading.

2. **CHARGING**
Greenbeans enter the roaster and are exposed to hot-air convection for fast, even heat transfer.

3. **DRYING PHASE**
Reducing moisture from 10–12% down to 1–3%.

4. **MAILLARD REACTION**
Developing color, sweetness, body, and caramel/cocoa notes.

5. **CRACKING STAGE**
Key milestonesthatdefine roast level and flavor structure.

6. **DEVELOPMENT**
Adjusting development time to balance acidity, sweetness and flavor depth.

7. **COOLING**
Rapid air cooling to stop the roasting process immediately.

8. **DESTONING/ COLOR SORTING**
Removing foreign materials and ensuring visual uniformity.

9. **DEGASSING**
Resting12–48hours for CO_2 release and flavor stabilization.

10. **QUALITY CHECK/ PACKAGING**
Finalinspectionand packingin one-way valve bags to preserve freshness and extend shelf life.

ROASTING PROFILE CODE TABLE

This is the Roasting Profile Code Table of Saigon Drip Coffee, developed using modern Hot Air roasting technology to ensure every roast level preserves the bean's natural sweetness, signature aroma, and clean, balanced cup profile.

Our standard roast levels include:

Robusta: Level 11 and 13 – ideal for espresso, Vietnamese phin, and blends that require strong body and stable crema.

Arabica: Level 8 – highlighting brightness, floral–fruity notes, and a clean finish.

Beyond these signature profiles, Our Roastery also custom-develops roast profiles based on each customer's needs, from light to medium to dark roast, tailored to different markets and brand styles.

With Hot Air technology, every profile is precisely ensuring batch after batch reproduced consistent quality and uniform flavour
